Why adopt?

Holliday Park Nature Center houses a number of animals native to Indiana. All of the animals are on exhibit daily and are used for educational programs with schools, scouts, and the general public throughout the year.

Adoption is a great way to show support for these animals and the environmental education they help serve. The adoption program generates funds for the animals' care, housing, and food. Your gift makes it possible to have these animals available for programming and display. Your adoption is a great gift for friends, family, and the community!
